

Design Project # _____

Grade 8

Date: _____

Name: _____

Class: _____

Guiding Question: _____

EVALUATE

Students **evaluate the product/solution**. At the end of the course, they should be able to:

- carry out tests to compare the product/solution against the design specification
- consider the success (and/or failure) of the product/solution in an objective manner based on testing, their own views and the views of the intended user
- consider the impact of the product/solution on individuals and on society
- explain how the product/solution could be improved.

Students **evaluate their use of the design cycle**. At the end of the course, they should be able to:

- reflect on their performance at each stage of the design cycle
- identify parts they found difficult and suggest ways in which their performance could be improved.

NOTE: Assessment Rubric must be printed at the back of this page.
